User: As a User I can **Register** an account, So that I can **Login** to a new session once logged out.

Once I've created a user profile, I am then able to access my **Account**(s) and adjust my user **Settings.**

As a user I have access to a library of **Movies** and **TV Shows** that she/he can choose. They may or may not be able to keep track of shows that have already been watched available on the **Watched** list. A user will also have a user home that contains a watch list and **Search** bar.

If a user has any issues they can always view the **Frequently Asked Questions** section.
